To the Honorable the Senate

For the purpose of the

State of Alabama -

County of \_\_\_\_\_

1913

Commissioner of the State

To the Chairman and Members of the  
Tregaron Rural District Council.

PREFACE.

I have pleasure in presenting the Annual Report of the Health Department for the year ending 31st December, 1957.

The number of registered live births for the year was forty four. Three of these were illegitimate. The birth rate for the area has been falling steadily during the past few years and the present figure is practically half the figure for 1951. Three stillbirths were registered and one child died under the age of twelve months. There were no maternal deaths as a result of childbirth.

The number of registered deaths was seventy nine. Thirty persons died of heart disease, eighteen of vascular lesions of the nervous system (strokes) and cancer in its various forms accounted for thirteen deaths. The remaining deaths were due to a variety of causes.

No cases of infectious diseases have been notified in the area for the third year in succession. Three new cases of Tuberculosis were notified compared to eight in the previous year. No deaths were caused by this disease.

Owing to curtailment on capital expenditure, no new houses were built by the Council during the year. I sincerely hope that we shall be able to resume our building policy in the near future, and that we can proceed with our plans for the erection of small bungalows for elderly people.

To the Chairman and Members of the  
Proctor Panel (October 1977)

### REPORT

I have pleasure in presenting the Annual Report of the Panel

appointed for the year ending 31st December 1977.

The number of registered firms within the year was forty four.

Three of these were liquidators. The audit rate for the year was falling

slightly during the year but remains at a level of approximately half

the figure for 1976. These figures were reviewed and are still valid

under the new set of financial measures. There were no material changes in the results

of the audit.

The number of registered firms was seventy nine. Thirty persons

list of firms, at least of twenty or more, of the various types

(various) and others in the various forms accounted for the audit. The

remaining firms were also a variety of cases.

In cases of liquidation, persons have been notified in the year for

the third year in succession. There has been no material change in the results

reported as being in the previous year. No further work is being done by this office.

Other to continue an audit, expanding on new forms were

sent to the Council during the year. I personally have been able to deal with

to review the results of the audit, and that we are pleased with

our share for the results of the audit, and that we are pleased with

The Council's consultant engineers have submitted a scheme of sewage disposal for Tregaron. It is to be hoped that this scheme, and schemes for other villages in the area, will be commenced during the next year.

A more detailed account of the work of the department will be found in the ensuing pages, including the section prepared by Mr. B. W. James, the Public Health Inspector.

The Council's committee on the subject of the  
average payment for the year. It is to be noted that this  
for other will be in the year, will be extended during the next year.  
A new detailed account of the work of the Department will be  
found in the coming pages, including the section prepared by Mr. E. W. Jones,  
the Public Health Inspector.

GENERAL PROVISION OF HEALTH SERVICES IN THE DISTRICT

These provisions are essentially the same as in the year 1956. They are briefly as follows:-

- (a) No ante-natal or post-natal clinic is held in the district by the local health authority. Expectant and nursing mothers receive medical advice from their own medical attendants.
- (b) An infant welfare clinic is held at Tregaron once a fortnight.
- (c) The domiciliary midwifery service is carried out by the district nurse who is also a State Certified Midwife.
- (d) A health visitor is resident at Pont Llanio and her area covers the greater part of the Rural District.
- (e) Home nursing is in the hands of the district nurse.
- (f) Vaccination is carried out by the person's own medical attendant but immunisation against diphtheria is performed partly by the former and partly by medical officers of the local health authority.
- (g) No ambulance is, at present, stationed at Tregaron. The district is covered by the Aberystwyth and Lampeter stations of the Ambulance Service.
- (h) Care and after-care are in the hands of the district nurse and of the health visitor. Tuberculosis cases are also followed up by the Chest Physician's health visitor.
- (i) Domestic help is provided by suitable persons engaged locally.
- (j) The town of Aberystwyth, 18 miles distant from the town of Tregaron is the centre upon which the principal general hospital in the county, the infectious diseases' hospital, the maternity home and the Medical Research Council's Area Public Health Laboratory are based.

SECTION 47 OF THE NATIONAL ASSISTANCE ACT, 1948.

No action was required to be taken under this section during the year.

---

The Sanitary Inspector's report is appended as a separate item.

DULYN THOMAS

MEDICAL OFFICER OF HEALTH.

Swyddfa'r Sir,  
Aberystwyth.

June, 1958.

ANNUAL REPORT OF THE PUBLIC HEALTH INSPECTOR & SURVEYOR.

PREFACE

It gives me great pleasure to submit my report for the year ended 31st December, 1957.

Whilst the Council continued to give attention to routine day-to-day matters they were unable to carry out any major new schemes. This was principally due to the continuing Government policy of restricting capital expenditure together with the high rate of interest on loans. The Council were thus unable to build any new houses although there is a definite need to erect a number of small bungalows for aged persons and small families.

On 1st April, 1957 all responsibility for water supplies was transferred to the newly formed South Cardiganshire Water Board. At the time of transfer the only water supply scheme in progress was that of Llanddewi Brefi, all others having been completed. There may be some regrets at the transferring of responsibility for water supplies as the Council were justifiably proud of their record in this field: at the time of transfer all the larger villages and most hamlets had been provided with a piped water supply.

The provision of proper sewerage systems and disposal plants for all villages is a matter now being considered by the Council. The Council's Consulting Engineers have been asked to draw up draft schemes for a number of villages and that for Tregaron has already been submitted and is being considered.

Consideration has also been given to erecting public conveniences at Llanddewi Brefi, Tregaron (Station Road), and Pontrhydfendigaid. Those at Llanddewi Brefi and Tregaron were commenced during the year and should be completed in the near future.

The Council resolved to change the present system for refuse collection whereby this is done by an outside contractor, and as from the 1st April, 1958 the Council will collect refuse by direct labour and with their own refuse vehicle.

The following report gives an account of the principal matters dealt with in 1957.

RECORD OF NOTICES

Number of Verbal Notices .. .. .	7
Number of Informal (Preliminary) Notices .. .	3
Number of Statutory Notices .. .	2

RESULTS OF SERVICE OF NOTICES:

Number of Verbal Notices complied with .. .	7
Number of Informal Notices complied with .. .	3
Number of Statutory Notices Partly complied .. .	2

HOUSING

Tabular Statement on Housing Statistics Required by Article 31 of the Housing Consolidated Regulations, 1925:-

(1)	Number of Houses found unfit after inspection .. .. .	5
(2)	Number of Houses in which defects were remedied after Informal Action .. .. .	6
(3)	Number of Representations to Local Authority .. .	5
(4)	Number of Notices requiring Execution of Works .. .	0
(5)	Number of Houses rendered fit after Formal Notice .. .	0
(6)	Number of Demolition or Closing Orders Made.. .. .	0
(7)	Number of Undertakings Accepted .. .. .	2
(8)	Number of Houses Demolished .. .. .	0

ACTION UNDER THE HOUSING ACTS:-

(a) Representations of Unfit Houses etc: Five representations were made under the Housing Acts in respect of houses unfit for human habitation, these being:- 2 Cambrian Street, Ffair Rhos, Bryn Farm, Bronant, Pantybeudy, Llangeitho, Gwynfil Issa, Llangeitho and Pantygasseg, Ffair Rhos.

(b) Acceptance from Owners of Undertakings not to let Unfit Dwellings:  
Two undertakings not to let houses for human habitation were accepted from the owners of the following:- Brynglas, Bontnewydd and 2, Cambrian Street, Ffair Rhos.

ACTION UNDER THE PUBLIC HEALTH ACT, 1936:

DISREPAIR Numerous items of disrepair were dealt with by verbal intimation to the owner. In one instance, two statutory notices were served on the owner of a house requiring him to carry out repairs: the house was subsequently sold and the new owner is now repairing the property.

Dangerous Building - Demolition: An inspection of the premises known as Ty Haearn, Pontrhydfendigaid, showed it to be structurally dangerous due to bulging and cracked walls. The building was very small two-storeyed, semi-detached and at the time was used as a cobbler's workshop. The owner agreed that the premises were dangerous and, as it would be uneconomical to carry out major reconstruction, the building was eventually demolished.

### HOUSING SURVEY.

Section 1 of the Housing Repairs and Rents Act, 1954, required local authorities to submit to the Minister proposals for dealing with unfit houses in their respective districts. Although the Council have twice appointed full-time enumerators to carry out this work the Survey has not been completed due to the subsequent resignations of the enumerators. Sufficient work has been done to show that the original estimate that 300 houses were unfit for human habitation and were not capable of being repaired at a reasonable cost was too high and the revised figure is given below:

Estimated Number of Unfit Houses	215 houses.
Period of Years to deal with above	20 years.
Number of Houses to be dealt with in the first five years (as from September, 1955)	50 houses.

It is hoped to complete the Housing Survey in the coming year and give more accurate information on the number of unfit houses in the area.

HOUSING ACT, 1949 - Improvement Grant for Modernising Houses:-

(a) Applications for Improvement Grants:-

Formal applications for improvement grants were received in respect of fifteen houses. Fourteen of the applications were granted and one, in respect of an earth-walled dwelling, was refused. The amount of grant and the total cost of the work at each house is as follows:-

Premises	Amount of Improvement Grant.	Cost of Work.
1. Post Office, Bwlchllan.	£378.	£815
2. Bancillyn, Bontnewydd.	£400	£1,100
3. Afallon, Llanddewi Brefi.	£394	£883
4. Gerynant, Pontrhydfendigaid.	£343	£778
5. Brynawel, Ysbyty Ystwyth.	£360	£1,031
6. Aelybryn, Pontrhydfendigaid.	£350	£782
7. Bronallt, Llangeitho.	£367	£859
8. 1, High St., Tregaron.	£362	£763
9. 1, Gwarewm, Pontrhydygroes.	£400	£1,057
10. 2, Gwarewm, Pontrhydygroes.	£400	£1,053
11. Glownant, Llundainfach.	£188	£482
12. Brynreithyn, Ffair Rhos.	£400	£1,224
13. Dolgoed, Pontrhydfendigaid.	£310	£808
14. Tynrhelyg, Lledrod.	£182	£434
	£4,834	£12,069

(b) Payment of Improvement Grants:-

Improvement Grants were paid in respect of eight houses all of which have now been provided with hot and cold water, bathroom, drainage etc., details being as follows:-

PREMISES	Amount of Improvement Grant Paid	Estimated Value of Work Done
1. 5/6 High Street, Tregaron.	£ 400	£ 1,249
2. Post Office, Pontrhydygroes.	350	731
3. Brynheulog, (Ty Ucha) Ffair Rhos.	265	531
4. Bwlchwernen, Llwyngroes.	400	1,297
5. Glandwr, Llangeitho.	400	1,961
6. 2, Mount Pleasant, Pontrhydygroes.	340	785
7. Ardwyn, (formerly Rossendale) Pontrhydfondigaid	400	1,150
8. 1, High Street, Tregaron.	362	763
	2,917	8,467

Thus it will be seen that substantial improvements at a total cost of £8,467 have been carried out to these eight houses (which were previously substandard). The Council's contribution towards the cost of these improvements is only one quarter of the loan charges on the grants made, the Ministry paying the remainder.

MEAT AND OTHER FOODS INSPECTION

GENERAL: Regular visits were paid to slaughterhouses and butchers shops for meat inspection purposes and numerous visits were paid to shops and other food premises. Food Vans were also inspected from time to time. Details of some aspects of this work are given below:-

Food Hygiene Regulations 1955-57. Owing to the necessity for completing the Housing Survey and other work it was not possible to carry out a comprehensive inspection of all food premises. Preliminary inspections have indicated that although most shops have reasonable standards much remains to be done in the way of providing adequate equipment and in minor, though important, matters of hygiene.

Ice-Cream: There are no ice-cream manufacturers in the area but ten premises are registered under Section 16 of the Food and Drugs Act 1955 for the storage and sale of ice-cream.

Milk: There are only 3 distributors of milk, as defined, in the area, though a number of producers also retail milk near their farm.

Unsound Food: The following types and quantities of foodstuffs were found on inspection to be unfit for human consumption and were voluntarily surrendered for disposal:-

From Shops:-     ..   ..   ..   ..   ..   ..   ..   ..   ..   ..   ..   ..NIL

From Slaughterhouses:-

Sheep's Liver	..	..	..	..	..	..	23 lbs.
Bovine Liver..	..	..	..	..	..	..	96 lbs.
							<hr/>
							119 lbs.
							<hr/>

Meat Inspection: There are three private slaughterhouses in the area, two in Tregaron and one in Llangeitho, all of them producing meat of excellent quality. Two hundred and twenty visits were paid to slaughterhouses and butchers shops for meat inspection purposes and inspections and condemnations are summarised as follows (see also Unsound Food, above for quantities).

	Cattle Excluding Cows	Cows	Calves	Sheep & Lambs	Pigs	Horses
Number inspected	138	0	1	1,860	9	0
All Diseases except Tuberculosis and Cysticerci						
Whole carcasses condemned.	0	-	0	0	0	-
Carcasses of which some part or organ was condemned	20	-	0	22	0	-
Tuberculosis only	-	N I	L	-		-
Cysticercosis	-	N I	L	-		-

#### RODENT CONTROL

This work is carried out on a part-time basis by the Council's maintenance workman.

There were no serious infestations of rats or mice but the premises found to be infested, either after complaint or survey, were suitably treated. The refuse tips at Tyndomen, Tregaron and Ystrad Meurig were regularly baited.

#### REFUSE DISPOSAL

Refuse collection is carried out either weekly or fortnightly in all the larger villages and hamlets and monthly in a few isolated districts. At the moment collection is undertaken by a contractor from outside the district but the Council has resolved to purchase a refuse collection vehicle and carry out the collection by direct labour as from April, 1958.

#### FACTORIES ACT, 1937.

There are twenty factories as defined in the Act within the rural district. With the exception of the Milk Marketing Board's Creamery at Pont Llanio these factories are very small and most of them employ only one or two people. Nineteen of these premises were "factories with power" and one was a "factory without power".

During the year the M.M.B. Creamery at Pont Llanio was inspected under the provision of Section 34 of the Act to determine whether the means of escape in case of fire were satisfactory. It was found that although the means of escape were acceptable there was no fire alarm on the premises. After the owners had installed a suitable fire alarm a Certificate of Adequacy of Means of Escape in Case of Fire was issued.

The Appendix at the end of this report gives statistics relating to factories within the area.

### WATER SUPPLIES

General: All responsibility for public water supplies was transferred on 1st April, 1957 to the newly formed South Cardiganshire Water Board.

The only water scheme in progress at that time was the Llanddewi Brefi Water Supply Improvement Scheme and it was subsequently completed during the year.

The Council can be proud of their achievements in this field as, at the time of transfer, nearly all villages and hamlets in the area had been provided with a piped water supply.

Private Water Supplies: The Divisional Office of the Ministry of Agriculture and Fisheries, Lampeter, submitted results of analyses of water from numerous farms and the Council agreed to the use of water for domestic purposes at fifteen farms.

### BUILDING

Council Houses: The total number of council houses in the district is 94. Although there does not appear to be a great demand, other than in Tregaron itself, for any more houses of the larger three-bedroomed type, there is a definite need for small bungalows of the one-or-two-bedroomed kind to accommodate old people and small families.

However the restrictions on capital expenditure and high rates of interest on loans continued and prevented the building of new houses.

Maintenance of Council Properties: The Council's maintenance staff consist of one Maintenance Workman and one temporary painter. A considerable amount of work was carried out on council houses and it can now be said that the houses are well maintained. The cost of maintenance for the twelve months ended 31st December, 1957 was: Labour - £584-8-2; Materials etc. - £152-15-11 (not including £72-18-4 spent on water conversions at Llanddewi). A deduction of £41-8-0 from the resulting costs in respect of storm damage insurance payment, gives the total Housing Maintenance Costs including routine external painting as £695-16-1 or approximately £7-8-0 per house for the year.

### STORM DAMAGE TO COUNCIL HOUSES

On the Bank Holiday Monday, 5th August, 1957 three council houses in Tregaron were damaged by lightning. In two houses at Maesyrawel, Tregaron, only minor damage was caused and this was confined to electrical fittings.

However at No. 1 Penrobyn Cottages, the damage was considerable and the lightning penetrated the roof and gable wall, which were extensively damaged. Damage was also caused to interior and exterior rendering, partition walls electrical fittings etc. A claim for the sum of £49.0.8, being the cost of the repairs, was submitted to, and was subsequently paid by, the Council's Insurance Company.

New Public Conveniences: Work commenced towards the end of the year on the erection of public conveniences at Station Road, Tregaron, and at Llanddewi Brefi. Negotiations are also proceeding to acquire a site for proposed public conveniences at Pontrhydfendigaid.

### Improvements to Caretakers' Accommodation, Council Offices:

Considerable improvements were carried out to the caretakers' accommodation at the Council Offices, Tregaron, and the premises now have all modern amenities including a hot water system, bathroom etc.

Private Dwellings: One bungalow was completed during the year: One house and one bungalow are now being erected.

Plans Approved: Twenty-three plans for new buildings or alterations or improvements to existing buildings were considered and approved; these are summarized as follows:

New houses.....	2
Alterations etc. to houses.....	15
Garages.....	1
New Shop & Office.....	1
Miscellaneous.....	4
Total Number of Plans Approved.....	<u>23</u>
